

FORTUNEGOLD

PLYWOOD

Manufactured with selected and
high quality hard wood timbers.

Fortunegold MR Plywood

Fortunegold is a result of our brilliant Research & Development team that works tirelessly to raise the bar and maintain the competitive edge. Right from selecting the perfect veneer to formulating phenol formaldehyde synthetic resin, Fortunegold is manufactured with utmost care.

Besides being MR plywood, Fortunegold is weather proof and Termit resistant. It is our premium Brand and we can proudly say that it is the best that can be offered to our customers.

With Fortunegold, we present grace of your home without compromising on quality and ensure your home is just like you, strong and stylish.

Fortunegold is premium grade high density plywood, manufactured with HARDWOOD veneer for high density.

MR grade ply is manufactured for the interior applications like wardrobe, kitchen cabinet, wall paneling etc.

MR grade is bonded with MUF resin and pressed in India's best hydraulic press for high quality.

Fortunegold

BWP Plywood

Fortunegold BWP is a premium grade boiling water resistant Plywood. It is manufactured with wider core and panel and bonded with high grade PF resin to resist in a high-moisture environment. It is frequently used in the construction of interior furniture and paneling. It has Superior bond strength between veneers so that it is virtually unaffected by moisture and dampness.

Fortunegold BWP can withstand severe climatic conditions. It passes through various quality measures starting from selection of high density timbers, strict control of face veneer and bonded with special high grade quality of Phenol resin.

KESAAV PLYWOODS

Kesav Plywood is the manufacturer and authorised stockist for the Fortunegold.
