 **REHAU**

REHAU Global

A global leader in polymer processing technologies

When Helmut Wagner founded the company in 1948 with just 2 employees, he illuminated the way forward with the principles of competence, passion and innovation. Today, REHAU is an independent and privately owned company that has over 20,000 employees across 50 countries. In every part of the world, the brand is redefining the interaction between our products and customers by engineering progress that enhances lives.

For the past 70 years, the ambition to enhance the lives of people around the world through innovative polymer-based solutions, along with the lessons from our predecessors, have been the driving force behind REHAU's success. Through our vigorous zeal and relentless efforts, we redefine what is possible in construction, automotive and industry, each day.

Today, insightful knowledge of the market and materials, complemented by tremendous experience in technology and manufacturing processes, allows us to cater to wide-ranging needs with customised solutions. This includes improving road safety, enhancing the aesthetic appeal of homes, reducing energy consumption in buildings, etc. We also ensure that progress remains sustainable for the generations that follow. By underscoring quality, efficiency and sustainability, we also ensure that progress remains sustainable for the generations that follow. We will continue our odyssey to make lives safer, healthier and easier across the world.

REHAU India

India footprints

REHAU commenced operations in India in 1997, by establishing a local manufacturing unit in Pune district of Maharashtra to cater for local industry market. Since then, it has established 3 plants and employed 300+ aspirants across the nation.

A German-based company dedicated to beautify and enrich homes with innovative solutions, REHAU prioritises and delivers superior solutions from product design to applications while providing great variety in terms of choices.

With more than 1000 direct customers and up to 2500 retailers, REHAU has exceeded expectations by establishing an enormous client base in India. The huge number of warehouses, offices and sales networks of REHAU across India continuously helps the polymer leader in rapidly capturing the market, and manage its operations.

REHAU offers a choice of wide range of products which allows one to live with premium quality, thereby, raising the standard of living. These choices are versatile enough to accommodate new changes and that too with convenience. REHAU ensures that a positive difference is made through quality, innovation and choice.

Let's live with quality!

Engineering progress Enhancing lives

A promise of enhanced living built upon 3 pillars:

Trust

With synergism in effort, and trust in each member of the REHAU network, we make the impossible happen.

Innovation

Our strength is derived from innovative ideas that improve the ordinary for extraordinary results and performance.

Reliability

Our adherence for ethical guidelines is the foundation of our corporate conduct, because our vision is a better today and a great future, making us a reliable partner.

Furniture Solutions

With a passion for innovation, reliability and high-quality standards, REHAU India is one of the leading providers of interior solutions. Delivering quality furniture components to customers across the country since the last two decades, we are driven by the force to enhance people's lives in a positive way. wherever we can. Our patented solutions like RAUKANTEX edgebands have set new standards for the furniture industry, making us the market leader. from flooring solutions to weaving materials, our furniture components are developed with a clear aim- 'Engineering progress. Enhancing lives.'

RAUVISIO Crystal

Providing the sleek shine of glass in a lighter-weight and durable polymer, RAUVISIO Crystal is both visually stunning and cost-efficient to install. Ideal for interior use, RAUVISIO Crystal boasts of a high-quality finish that eliminates the disadvantages of real glass while maintaining a sense of elegance with ease.

RAUVISIO Ace

A perfect combination of style and functionality, RAUVISIO Ace is endowed with features such as abrasion resistance, thermal healing capability and super soft matt finish, making it ideal for residences as well as commercial projects. The premium anti-fingerprint laminate eliminates the issue of marks on the surface, while the anti-microbial surface protection provides safety against a wide range of bacteria.

RAUVISIO Brilliant

With its outstanding depth effect, long-term UV resistance and intensely vibrant colour, RAUVISIO Brilliant laminates serve as a great alternative to high-end lacquered elements for surfaces. A versatile surface solution with outstanding colour and shine, RAUVISIO Brilliant can be cut into any shape, granting the user total design freedom.

RAUVISIO Crystal

The most flexible glass of all time

Glass lends a sense of elegance and luxury to kitchens, bathrooms and living rooms. An innovative surface material, RAUVISIO Crystal fully lives up to this trend and offers maximum design flexibility. RAUVISIO Crystal is a polymer glass that offers a high-quality glass finish while completely eliminating the disadvantages of real glass.

The smart glass RAUVISIO Crystal looks just as beautiful as real glass with a number of advantages. It is more durable, scratch-resistant, much lighter than real glass and also offers excellent processing flexibility.

Can be processed with conventional wood working tools

Easy cleaning due to hard coat finish

Impact resistant and 10 times more durable than real glass

50% lighter than real glass

Colour and UV-stable

High scratch resistance due to its hard coat finish

Can be written on and cleaned without leaving any residue

RAUVISIO Brilliant

High-gloss laminate with a lacquered appearance

RAUVISIO Brilliant represents our latest generation of high-gloss laminates. Thanks to its vibrant depth effect, it can even replace high-quality painted elements. The brilliant high-gloss laminates consist of a PMMA and ABS layer, and guarantee a high-tensioning force with a positive effect on surface stability after processing.

RAUVISIO Brilliant exhibits excellent lightfastness and UV resistance. There is no colour fading, regardless of natural or artificial exposure to light when used for interior applications. The high-gloss laminate has enhanced scratch-resistance, making it an ideal choice for interior applications. The balancing sheet developed in-house is perfectly colour-coordinated to RAUVISIO Brilliant and has sufficient freedom from distortion for the pressed board.

Can be processed with conventional wood working tools

Easy cleaning due to hard coat finish

Up to 60% lower production costs compared to lacquered components

TÜV-tested according to AMK regulations

Colour and UV-stable

High scratch resistance due to its hard coat finish

Seamless appearance

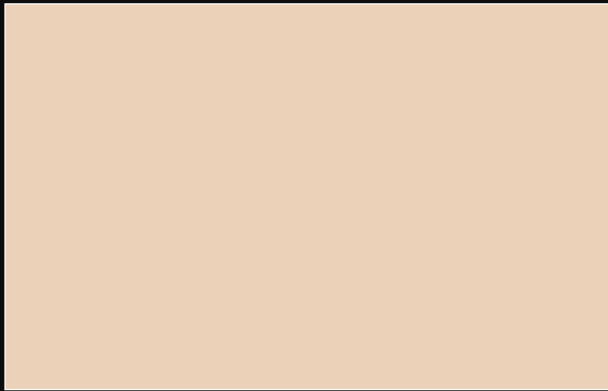

Can be written on and cleaned without leaving any residue

Now available in 1mm thickness
